Building 36, Room 1C-06
National Institutes of Health
Bethesda, MD 20014

Dear Marshall,

Just a short note to tell you how delighted we will be to see you again in Israel. I believe that the Satellite Symposium on Biochemical Development of Nervous Tissue in Culture, as well as the following congress will be of great interest and I do hope you will find the time and energy to come.

Please also note that we do have plans to ask you to participate in the Symposium on Developmental Neurobiology which will take place in Jerusalem within the framework of the 13th FEBS Meeting, 1980.

These are all the invitations in stall and I wish you and Perla a Happy New Year.

Best wishes

Sincerely yours,

Uriel Littauer
